# St. Joseph's College of Commerce

(Autonomous) 163, Brigade Road, Bengaluru – 560 025

Accredited with 'A++' Grade (4th Cycle) by the National Assessment and Accreditation Council (NAAC)

Recognized by the UGC as "COLLEGE WITH POTENTIAL FOR EXCELLENCE"

# **B.Sc. Economics (Honours)**

Semester VII Syllabus as per National Education Policy Curriculum Framework

Academic year 2025 - 26

# St. Joseph's College of Commerce (Autonomous) Affiliated to Bengaluru City University

St. Joseph's College of Commerce (SJCC) was formerly a part of St. Joseph's College, established in the year 1882. The Commerce Department was established in the year 1949 and it became an independent college with its own building in Brigade Road in the year 1972.

The college has in its Vision a model for higher education which encourages individuals to dream of a socially just world and in its Mission a strategy to empower individuals in realizing that dream.

With an objective of imparting quality education in multidisciplinary fields of Commerce, Management, Economics, English and Psychology the college has been innovating in all aspects of higher education over a long period of time. These innovations were further bolstered with the granting of autonomous status to the college by UGC in September 2005. From then on, the college has taken a lead in reforming curriculum and syllabus, examination and evaluation pattern and teaching and learning methods through the Board of Studies, the Academic Council and the Governing Council comprising of eminent academicians, industry representatives and notable alumni.

The college has undergone four cycles of NAAC accreditation starting from the year 2000 in which it secured 'five stars', next in the year 2007 an 'A' grade, in the year 2012 again an 'A' grade and recently in February 2021 an 'A++'. It is one of the very few institutions in the country to have secured A++ grade in the fourth cycle under the Revised Accreditation Framework (RAF) and the first college in Karnataka to do so. The college was declared as a 'College with Potential for Excellence' in the year 2010. In 2011 SJCC was recognized as a Research Centre by Bangalore University. The college has been ranked 65th in the National Institutional Ranking Framework (NIRF) ratings of Ministry of Education, Government of India, in 2023 and it has been the only institution from Karnataka to make it consistently to the top 100 in the country.

The college offers diverse programmes in Commerce, Business Administration, Economics and English. Under Commerce Studies it offers

B. Com, B. Com (Professional- International Accounting and Finance), B.Com (BPS- Industry Integrated), B.Com (Travel and Tourism), B.Com (Analytics), B.Com (Professional - Strategic Finance), M.Com (Finance & Taxation/ Marketing & Analytics), M.Com (International Business) & M.Com (Financial Analysis). Under Business Administration it offers BBA, BBA (Entrepreneurship) and BBA (Professional- Finance and Accountancy). The college also offers six one-year Post Graduate Diploma programmes. The College offers a B. Sc Economics (Honours) Programme and a B.A English and Psychology Programme.

## THE DEPARTMENT OF ECONOMICS

The Department of Economics offers B. Sc Economics (Honours). This Department has started to incorporate the multidisciplinary spirit of the new NEP 2020. The B. Sc Economics (Honours)

programme has been designed to provide a cutting edge expertise in mainstream economics with minor (psychology). The programme aims to develop analytical, creative and critical thinking skills for problem solving and decision making. It aims at better understanding of social, economic, psychological and political issues and also explores the full spectrum of finance. The transferable skills attained through the B.Sc (Economics) are highly sought after by employers and increase the employability quotient of students in various dynamic fields. A student could be an economist, a government advisor, financial consultant, econometrician, banker and also look forward to different government positions after successful completion of the programme. Keeping in view the new NEP, the programme is multidisciplinary in nature and integrates different fields like Psychology, Finance, Mathematics, Statistics, Data Analytics, Operations Research, History, Politics, Environmental Studies, Model Building with an inbuilt local as well as global perspective.

New elements such as internship, case studies, seminars and research projects enhance deeper understanding of the practical applications of the programme. So, join in to embark on a whole new adventure with us. The bachelor's degree programme in Economics is a full-time undergraduate programme that aims at providing a programme structure which would retain the 'traditionals' in the programme and equip the students with business acumen necessary to succeed in the professional world. On completion of B.Sc. (Economics) at SJCC, students will acquire comprehensive knowledge of how the economic principles are applied in the society, family, government and private sector, business, and science.

# SALIENT FEATURES OF B.Sc. ECONOMICS (HONOURS) PROGRAMME

- 1. The regulations governing B.Sc. Economics (Honours) Programme will be applicable with effect from the Academic year 2025-2026.
- 2. This Programme offers a wide range of multidisciplinary courses with exposure to other disciplines, specializations and areas. The programme aptly caters to knowledge, ability, vocational, professional and skill enhancement along with focus on humanities, arts, commerce, management, social, physical and life sciences, mathematics, sportsetc.
- 3. This Programme combines conceptual understanding with practical engagement through lab courses, national and international field visits, internship, conferences, workshops, seminars, case study analysis, group discussions and research projects.

# I. ELIGIBILITY FOR ADMISSION

Candidates who have completed the Three-year BSc with Economics are eligible for admission into this Programme.

# II. DURATION OF THE PROGRAMME

The duration of the Honours programme is *one- year* (two semesters)

## III. MEDIUM OF INSTRUCTION

The medium of instruction shall be English.

## IV. ATTENDANCE

- a. A student shall be considered to have satisfied the requirement of attendance for the semester, if he/she has attended not less than 75% in aggregate of the number of working periods in each of the courses compulsorily.
- b. A student who fails to complete the course in the manner stated above shall not be permitted to take the end semester examination.

# V. SUBJECTS OF STUDY

The category of courses and their descriptions are given in the following table.

|                                  | Objective/ Outcomes   |
|----------------------------------|---|
| Major Discipline<br>Core Courses | Major Discipline Core Courses aim to cover the basics that a student is<br>expected to imbibe in that particular discipline. They provide<br>fundamental knowledge and expertise to produce competent, creative<br>graduates with a strong scientific, technical and academic acumen. |
| Elective Courses                 | These courses provide more depth within the discipline itself or within a component of the discipline and provide advanced knowledge and expertise in an area of the discipline.  |
| Dissertation/<br>Internship/     | Students shall carry out project work on his/her own with an advisory<br>support by a faculty member to produce a dissertation/ project report.<br>Internship/ Entrepreneurship shall be an integral part of the Curriculum.  |

# VI. CREDIT REQUIREMENT

Credits represent the weightage of a course and are a function of teaching, learning and evaluation strategies such as the number of contact hours, the course content, teaching methodology, learning expectations, maximum marks, etc.

# VII. TEACHING AND EVALUATION

M.A/M.Sc graduates with Economics as basic degree from a recognized university are only eligible to teach and to evaluate the courses

# VIII. EXAMINATION & EVALUATION:

## a. CONTINUOUS FORMATIVE EVALUATION / INTERNALASSESSMENT

Total marks for each course shall be based on continuous assessment and semester-end examinations. As per the decision taken at the Karnataka State Higher Education Council, the total marks for CIA and ESE as per NEP will be 40:60.

| TOTAL MARKS FOR EACH COURSE           | 100%      |
|---------------------------------------|-----------|
| Continuous Internal Assessment –CIA 1 | 20% marks |
| Continuous Internal Assessment –CIA 2 | 20% marks |
| End Semester Examination - (ESE)      | 60% marks |

# b. EVALUATION PROCESS OF INTERNAL ASSESSMENT MARKS SHALL BE AS FOLLOWS.

- i. The first component (CIA 1) of assessment is for 20% marks. The second component (CIA 2) of assessment is for 20% marks.
- ii. At the end of the semester, an end-of-semester examination shall be conducted by the college for each course. This forms the third and final component of assessment (C3), and the maximum marks for the final component will be 60%.
- iii. The students shall be informed about the modalities well in advance. The evaluated assignments during component I (CIA 1) and component II (CIA 2) are immediately provided to the students.
- iv. The marks of the total internal assessment shall be published on the ERP for students at the end of the semester.
- v. The internal assessment marks shall be submitted to the COE as per the date mentioned.
  - a. There shall be no minimum marks in respect of the internal assessment marks.
  - b. Internal assessment marks may be recorded separately. A student who has failed, shall retain the internal assessment marks as there will be no change in the CIA results scored.

#### c MINIMUM FOR A PASS

i. A student needs to get 40% in the end semester examination and in addition the student also should get an aggregate of overall 40% inclusive of his internal assessment to be declared as passed.

ii. The student who is passed in all the end semester examinations in the first attempt is eligible for rank

iii. A student who passes the semester examinations in parts or attempted supplementary exams is eligible for only Class, CGPA butnot for ranking.

iv. The results of students who have passed the last semester examinations but not passed the lower semester examinations shall be eligible for the degree only after completion of all the lower semester examinations.

v. If a student fails in a subject, either in theory or practical's he/she shall appear for that subject only at any subsequent regular examination, as prescribed for completing the programme. He/shemust obtain the minimum marks for a pass in that subject (theory and practical's separately) as stated above.

# d CARRY OVER

Students who fail in lower semester examinations may go to the higher semesters and take the lower semester examinations as per odd or even semester in the next consecutive chance.

## e CLASSIFICATION OF SUCCESSFUL CANDIDATES:

The ten-point grading system is adopted. The declaration of result is based on the Semester Grade Point Average (SGPA) earned towards the end of each semester or the Cumulative Grade Point Average (CGPA) earned towards the completion of all the eight semesters of the programmes and the corresponding overall grades.

# **Program Objectives**

- 1. To provide a sound foundation in factual knowledge in various concepts, theories and models of mainstream economics, and its diverse subfields of macro, micro, developmental economics, public finance, monetary economics, etc. to rigor to the subject and learn to apply them in analysing economic phenomena.
- 2. To develop strong quantitative skills in students by introducing them to mathematical economics, statistics and econometrics in order to analyse complex economic issues.
- 3. To enhance 'learning to learn' skills in students through guided self- learning in order to develop their critical and creative thinking skills and
- 4. be able to generate new ideas and processes.
- 5. To enable students to integrate technology into the study of complex economic phenomenon for analysis of available data, learning to make inferences and finally, learning to produce findings in visual form and writing.
- 6. To be able to critique the dynamic complex interaction of economies with society by studying firms and governments through behavioural experimental methods which will lead them to explore policy formulation.

#### **Programme Outcomes**

- 1. Systematic understanding of economic terminology and concepts. Ability to recall the fundamentals of both micro and macroeconomics theories.
- 2. Explain the relationship between various economic factors and variables.
- 3. Interpret different economic data through tabulation and graphical presentation of data.
- 4. Excellent understanding of how to tackle economic problems while being aware of the application and limitations of different approaches, showing strongjudgement in the usage of these approaches in varied settings.
- 5. Analyse economic data with the aid of mathematical and quantitative techniques.
- 6. Create economic simulation model which represent real life scenario and creatively find solutions to economic issues.
- 7. Determine the boons and banes of economic arguments, economic policies, economic theories and economic reasoning.
- 8. Assessing the impact of economic developments on society and make recommendations for evolving stronger and better economic policies.
- 9. Developing new economic models relevant to a dynamic environment by incorporating latest technologies and software.
- 10. Solve the complex Macro economic problems with an understanding of the societal, legal and cultural impacts of the solution. (Example: Economics Goods & amp; Services Tax (GST)-Fiscal Monetary Policy, Union Budget, Crony Capitalism, Bankruptcy Code, Re-capitalism and so on)
- 11. Carrying out innovative and original research.

| Course<br>Objectives                           | have a comprehensive understanding of the concepts and theories behind Regional<br>Planning and Sustainable Growth. It will help students analyse urban and rural<br>planning perspectives, regional flows, and sustainable development strategies. The<br>course emphasizes practical applications through models, case studies, and planning<br>tools to bridge the gap between theory and real-world challenges. |  |                                |                                 |                    |                        |                          |  |  |  |  |  |

| Course<br>Objective<br>s     | bjective of financial economics, focusing on the principles of financial decision-making, risk and return, asset valuation, and market efficiency. The course explores key financial instruments, the time value of money, interest rate determination, and portfolio management, equipping students with essential analytical tools for evaluating investment decisions. By covering fundamental asset pricing models, financial risk management, and an introduction to derivatives, the course aims to develop critical thinking and practical skills applicable in financial markets and corporate finance. |   |                    |                 |                                 |                        |  |  |  |  |  |  |
